

Amounts Generally Billed

Amounts Generally Billed (AGB) is based on the lowest average of the amounts that were paid to a Maui Health Systems (MHS) facility by private health insurers, Medicare fee-for-service and Medicaid fee-for-service (and co-pays and deductibles) for emergency or medically necessary services, based on actual claim data from July 1, 2018 to June 30, 2019, which is consistent with the look-back method. Total expected payment from allowed claims was divided by total billed charges for such claims, and that number was subtracted from 1 to calculate the AGB percentage. The updated 2019 AGB reduction to gross charges is 62% for hospital charges as of September 1, 2019.
